The screenshot shows a vibrant illustration of a patio at dusk or night, overlooking a city skyline with a prominent capitol building. People are gathered in groups, some sitting at tables with laptops, suggesting a networking or workshop environment. A large green parrot wearing a cowboy hat sits prominently in the foreground, looking towards the camera. The interface includes a navigation bar with 'Sign In' and 'Hosted GPU Access, AI Image Generation, LLM Driven NPC's in Games, and More!', and a search bar. Below the main image, there's a date and time section showing 'April 03, 2024 - 6:30 PM' and a duration of '2 hours 30 minutes'. A 'Register' button is visible. At the bottom, there's a summary of remaining time: '0 DAYS 0 HRS 56 MIN 23 SEC'.

**Hosted GPU Access, AI Image Generation, LLM Driven NPC's in Games, and More!**

Austin LangChain Group Meetup: AI Image Generation, LLM Driven NPC's in Games, and More!

Date: April 3, 2024  
Time: 6:00 PM - 9:00 PM  
Location: 1204 San Antonio, Austin, TX  
Note: Hybrid content starts at 7:00 PM Central

This meetup is your ticket to exploring the cutting-edge world of AI and programming, set against the backdrop of our beautiful patio overlooking the Capitol. Whether you're a seasoned member or new to our community, there's something for everyone.

Schedule  
6:00 PM - 7:00 PM: Member Mixer on the Patio

# AI Data Scientist

## Scott Askinosie

Data Scientist  
Western Governors University

Scott is a former scientist/professor gone rogue to work as a data scientist by day and a hacky AI enthusiast by night. He has an MS in Biomedical Science and a Ph.D. in Cellular and Molecular Biology. He studied the affects of EMFs on cellular aging and DNA repair and how cells interpret and respond to varying qualities and quantities of light. He then worked as a professor before quitting academia and enrolling in a Data Science Bootcamp. Now he frantically henpecks and cusses at his keyboard

# Panel - Lesson Learned

Karim Lalani

Rob Kessler

Ricky Pirruccio

Scott Askinosie

# Voice Controlled AI Agents

Gannon Combs 

Senior Cryptocurrency Engineer  
Visa

Gannon is a senior blockchain developer at Visa, with five years of experience in the tech industry. A UVA graduate, he enjoys toying with AI agents, building crypto wallets, and writing fiction in his spare time.
